

Press Release

Trusted Mobile Solutions, Inc. (tMo) and S-GROUP Holdings/ESRI S-Group Sweden Create New, Strategic Alliance to Distribute tMo's Innovative Trusted, Secure Mobile Information Exchange Solutions in Europe

Portland, OR —July, 2008—Trusted Mobile Solutions™ Inc. (tMo), a recognized leader in the design and deployment of information exchange solutions, trusted mobile technologies and spatial decision support infrastructures based on Geographic Information Systems, today announced an expanded strategic alliance with S-Group Holdings/ESRI S-Group Sweden, to extend the highly secure information sharing capabilities of the TIES™ services to wireless mobile devices and services in Europe and to bring tMo's innovative new *tMo for Sharepoint* product to market in Europe. S-Group Holdings/ESRI S-Group Sweden is the Swedish and Finnish Distributor for ESRI, Inc. (the world leader for geospatial software and solutions) and one of Scandinavia's leading GIS corporations, specialized in providing geographic information solutions to support business decisions in operational and strategic planning amongst private and public sector organizations

tMo's platform and solutions are based on powerful managed services, easy to use mobile applications and backend business logic and processes providing line of business applications for the enterprise and governments worldwide. tMo specializes in secure mobile information exchange, smart multimedia based alert and content creation and dissemination, enterprise integration and spatial analytics. tMo's expertise and interests lie in bringing to market a new and innovative set of capabilities that couples spatial relevancy - Geographic/Location Based Information with predictive analytics to business and government activities – that provides substantial value unique to the mobile and enterprise markets.

tMo will continue to develop applications for mobile devices requiring new thinking in terms of form factor, ease of use, integration with corporate backend Enterprise systems and in particular – security for the European market. In this spirit, tMo's current technology and roadmap includes the persistent and dynamic development of trusted communities – providing information sharing and other activities within a group context. In an information rich world, special consideration needs to be taken regarding targeting and filtering of information to those on the go. Mobile users should not worry about security of the information they view, collect or distribute. tMo's technology ensures trusted mobile communications for business, and government customers.

S-Group Holdings/ESRI S-GROUP is providing these innovative new services, directly and through partners and carriers, to Swedish and European emergency response agencies, critical infrastructure protection stakeholders, businesses and others requiring the timely and secure sharing of trusted information, integrated with critical backend enterprise systems, to mobile devices via wireless services. "We believe that tMo's innovative new offerings, will provide the invaluable and needed services for secure information sharing in a mobile framework to the European market," said Rickard Zetterberg, Chairman of the Board of S-Group Holdings/ESRI S-GROUP.

"tMo is extremely excited to be working with S-Group. Their ability to bring our services and products to the European market, their quality reputation in Europe and their long history of delivering solutions to

customers, will help bring these needed services to the European continent,” said John Ballantine, CEO of Trusted Mobile Solutions, Inc. “This will provide end-to-end security and assurance to the mobile marketplace in Europe that goes beyond what is available today.”
